LATE JOBS FROM PERRY

Note about piano and chair at the Capital City book store.

PERRY, Okla., Sept. 29.—Another great day has passed with Perry in the dust, but everybody feels contented and hopes the good Lord will answer their rain prayers soon, and that the Santa Fe road will ship in lumber. There are over 200 business men wanting to build and three hundred carpenters are waiting for lumber. Perry will be a city of 10,000 people and immediately after a good rain it will "boom." Her citizens seem to be a class of orderly people and are progressive, and especially those people are "in the push." The talk of town trustees has died out and steps taken for legal government. Wm. Tilghman of Chandler seems to be in the lead in the town meetings. As soon as a speaker begins to talk some one proounds the question: "Where are you from?" If from Guthrie, Georgia or Arkansas he can speak. Attorney L. E. Payne of Chandler attempted to address the crowd last night and some one asked the question, "Where are you from?" "Kansas," was the reply. "Git out, you Peiferite," came from the audience, and he vanished. At another meeting he attempted to address the boys when the same question was asked. "Texas," he replied. "Sit down, you Texas rebel!" One great drawback to Perry is the absence of some kind of a paper for evidence or title to a lot as there are many capitalists here waiting to purchase lots. Just as soon as a sale is made some gnat jumps up and says he has stuck a stake on that lot and intends to contest, which puts a damper on the sale and the investor will abandon the city. The townsite board should call a meeting at once and enter the land, make the survey and advertise for applications for lots. Just as soon as deeds are issued Perry will be on a solid foundation.
